

1. Content Hierarchy

plaintext

CopyEdit

Main Category (e.g., Indian Polity)

├ Subtopics (e.g., Constitution, Parliament, Judiciary)

| └ Subtopic Quiz

└ General Quiz (aggregates all completed subtopics under this main category)

Terminology

To keep things organized and intuitive:

Term	Meaning
Subject	Broad area (e.g., Polity, Economy, Geography)
Topic	Main topic within a subject (e.g., Constitution)
Unit Quiz	Quiz on a specific subtopic
Comprehensive Quiz	Quiz combining all completed Unit Quizzes under one Topic
Mock Test	Full-length test simulating UPSC Prelims or Mains
Adaptive Practice	Dynamic quiz based on user weak areas

UI/UX Design

Dashboard

- **Tiles for each Subject** (e.g., Polity, History)
 - Each tile shows:
 - % completion
 - "Start General Quiz"
 - "View Subtopics"
 - Progress bar (based on Unit Quizzes completed)
-

Topic Page (e.g., "Indian Polity")

Header:

- Subject Name
- General Quiz CTA: “ Take Comprehensive Quiz”

Body:

List of Subtopics:

Subtopic	Status	Actions
Constitution	 Completed	“  Take Quiz”
Parliament	 In Progress	“  Take Quiz”
Judiciary	 Not Started	“  Take Quiz”

- - Option to **reset** quizzes
 - Progress indicator (like badges or stars)
-

Quiz UI

Layout:

- Question + 4 Options
- Timer
- Navigation (Next, Previous, Bookmark)
- Flag for Review
- Progress bar (e.g., Q 3/20)

Post-quiz Summary:

- Score + Time
 - Accuracy (Overall, by topic)
 - Weak Areas
 - Retry Incorrect Questions
 - Save to "Review Later"
-

Performance Analytics

- **Topic-wise Analysis**
 - Heatmap of strengths and weaknesses
 - **Compare with peers** (optional leaderboard)
 - Time spent per question
-

Other Features

- **Bookmark Questions**
 - **Daily Quiz Challenge**
 - **Question Bank** by filter (difficulty, year, subject)
 - **Revision Mode** (only incorrect/marked questions)
 - **Gamification**: XP points, badges for streaks, high accuracy, etc.
-

Tech Structure (High-level Backend Model)

Database Tables:

- Users
 - Subjects
 - Topics
 - Subtopics
 - Questions
 - Options
 - Answers
 - Quizzes
 - Attempts
 - Bookmarks
 - Analytics
-

Would you like a **wireframe or Figma-style visual design** next? I can also help build out a **React + Tailwind frontend**, or provide **sample schemas for database setup**
